

# HFE's Two Solar Rooftop Solutions CAPEX and OPEX

## What are Capex and Opex?

The two solar rooftop models available depending upon your business needs.

## What is the purpose of solar rooftop?

Solar rooftop serves your energy consumption needs with cleaner resources.

## How do I benefit by switching to solar energy?

As a businessperson, you lower your operational costs. As someone conscious about the environment, you reduce your carbon footprint.

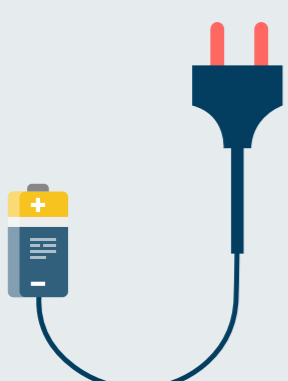

## TELL ME MORE ABOUT THE TWO MODELS

### Capex

Capital Expenditure

One-time investment

Suitable when your power requirement is small

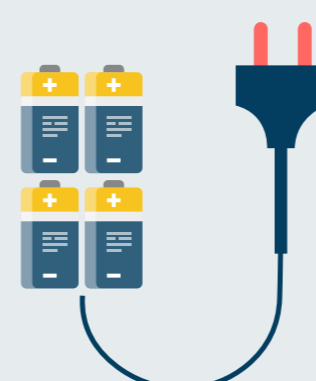

Payback period of 4-5 years

### Opex

Operational Expenditure

No major investment: Payment tenure and tariff decided by a Power Purchase Agreement (PPA) signed with a Renewable Energy Service Company (RESCO)

Suitable when your power requirement is large

Payback period of 10-15 years
